

Signature Workshops

Serious Fun

Gamify your professional development. This fast-paced, activity based workshop is facilitated by us but lead by YOU. We'll get you out of your seats and laughing, learning, and sharing with hands-on, minds-on modules that play like a game show where everyone wins. The best part? We want you to steal this session! Each activity is designed to be used in training with your volunteers or staff so that professional development becomes the best part of any meeting. This rollicking workshop can be customized for your needs!

The Docent's Toolbox

A workshop designed specifically for your volunteer or seasonal interpretive team. Docents are often the front line of your museum's interpretation and are integral to welcoming visitors, delivering your message, and creating an experience a visitor will want to share and remember. Take care of your crew by providing a workshop that adds to their best practices, sharpens their interpretive skills, and refreshes their passion for their work without dismissing the broad skillset that each volunteer brings to the team. This is a must-have workshop for museums with part-time docents, well-experienced docents in want of new perspectives, or for that once-a-year docent welcoming training. Got new folks training with returning folks? Schedule an Interpretation 101 workshop for the newcomers, too.
